**2019 SURVEY RESULTS**

In December 2019, Our Military Kids surveyed 1,323 grant recipient families to illustrate the impact our program has on children, service members/veterans, and their families during deployment or combat-injury recovery.

- **94%** reported improvement in overall family wellbeing.
- **90%** reported improvement in the service member’s morale and/or recovery.
- **81%** reported improvement in their child(ren)’s academic performance.
- **75%** reported a decrease in their child(ren)’s negative symptoms associated with the deployment or recovery.

**CELEBRATING 15 YEARS**

**GRANTS GIVEN SINCE 2004**

- **88%** Deployed
- **12%** Severely Injured

**TOTAL GRANTS GIVEN**

- **4,129** Severely Injured Program
  - Est. 2008
- **63,978** Deployed Program
  - Est. 2004
Thanks to Our Military Kids, my three eldest children were able to try a new Krav Maga self-defense class, which has boosted their confidence and helped maintain their physical fitness level. Prior to the deployment, their daddy would spend time with them by taking them running. This class was able to 'fill his shoes' until he returned. Thank you, Our Military Kids, for this opportunity and your support for military families. It means so much to us!"
